WHAT OUR CUSTOMERS ARE SAYING ABOUT US

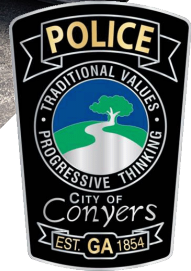

“Conyers Security Alert is my family's local, dependable choice for our home security system. I know if I have a question about the latest security offerings or need to request a technician's services, the staff at CSA is friendly, knowledgeable and easy to reach.” – Julie G.

“As a longtime resident of Rockdale County, I totally support the security benefits available through the Conyers Alert System. I consider it one of the best Security Systems in Georgia” – Harold T. (RET. Chief Fulton County)

“For the last seven years, my fur babies and I have enjoyed the comfort and convenience of CSA. CSA is local, you can talk to someone friendly and helpful on the phone easily if there's ever an issue, and the technicians are knowledgeable and professional. I have cameras in my house where I can check on my babies at any time and the app on my phone is easy to control the system. CSA is the best and I wouldn't use any other service.” – Sherrie W.

SECURE & PROTECT WHAT YOU VALUE

WHEN YOU'RE AWAY WHO'S WATCHING?

Put the power and security of the City of Conyers Police Department directly to work for you.

Conyers Security Alert is the only police department monitoring station in the nation that is UL certified. UL certified means that we have been given a stamp of approval for the strictest, highest level of monitoring available. That means your home or business is monitored by state-certified operators here in Conyers at the Police Department, not in a call center hundreds of miles away.

While there are many benefits to our service, perhaps the strongest is our average emergency response time of **two minutes for a Conyers Police Department officer.**

Plus, by using our service, you are able to bypass the "middleman" that most other security companies represent with no contracts or long-term commitments.

Conyers Police Department

WHY CONYERS SECURITY ALERT?

We offer effective solutions to protect your home or office.

- ✓ **MONITORING** The monitoring of your security system with us is directly handled by the City of Conyers 911 Center. That means help is dispatched immediately, saving you valuable time. Unlike other security alarm companies where dispatch is routed to an out-of-state operator.
- ✓ **PRICING** Shop and compare our rates. We're among the most competitive you'll find anywhere.
- ✓ **REMOTE ACCESS** Interactive services are available for iPhone and Android users. Remotely arm and disarm your security system, receive real time notification of alarms, view arming history and securely share access to your system via the mobile application.
- ✓ **ADDITIONAL OPTIONS** Value added services, such as cellular and internet communicators, medical alert systems, wireless systems, access control systems, fire protection, camera systems (CCTV), carbon monoxide detection, intercom systems and panic/hold-up systems are also available.
- ✓ **NO SALES PITCH** All quotes are given by experienced technicians that know what works best, not a salesperson out to make a commission. Free security evaluation and quotes. No contracts.

RESIDENTIAL SERVICE

There's nothing more precious than your family. For a few cents a day, Conyers Security Alert provides an extra layer of protection for you, your family and your home.

HOME Monitoring service fees starting as low as \$18.95 monthly.

COMMERCIAL SERVICE

You've invested a lot into your business, and you've built up its resources and reputation to be the best it can be. It's a logical next step to consider implementing or upgrading a commercial security system to protect your company and its assets. Of course, you want to make sure your return on investment is worth it, so it's important to weigh the pros and cons of a business security system and determine how simple or complex of a system you need.

BUSINESS Monitoring service fees starting as low as \$24.95 monthly.
